Dear Customer,

The Scanlan family has specialized in the design and manufacture of the highest quality surgical products since 1921. Now in our fourth generation, my family continues its dedication to providing you with the best surgical instrumentation available anywhere in the world.

Scanlan has continued this tradition with the development of the titanium LEGACY needle holders and forceps. These precision titanium instruments offer superior balance, handling and tactile feel. Now featuring the revolutionary SCAN-II® handle design that is unlike any other instrument available!

If I can ever be of assistance to you, please call me toll-free within the United States or Canada, or collect from anywhere in the world. Thank you for your continued support and demand for the finest.

Sincerely,

Timothy M. Scanlan
President
Chief Executive Officer

100 Years of Excellence... And Our Journey Continues

Features of *LEGACY* Titanium Forceps

Titanium **FORCEPS**

Unique 10 mm Diameter and Extended Knurling

- Provides the titanium instruments with the optimized weight and balance.
- The extended knurling provides more surface area for the surgeon to grasp the instrument.

Perfect-Pyramid™

Provides a secure grasp.

Non-Magnetic

The properties of titanium prevent the needles from clinging to the instrument.

Never Shear™ Dual Guide™

Provides secure, reliable control without trauma to tissue or damage to needles.

Diamond-Dust™

Provides secure, reliable control without trauma to tissue or damage to needles.

SCAN-II® Handle

Revolutionary design that features a flat surface for control with round knurled sides for a secured grip and the ability to roll the instrument during procedures.

Round Handle

The original 10 mm round design provides the surgeon with a secure grip and the ability to roll the instrument during procedures.

Dual Guide™ Patent No. 8,147,512

The *Never Shear™* Dual Guide™ design was developed in cooperation with John D. Puskas, MD

Patent Pending SCAN-II® Handle Design
