

SCANLAN® Microsurgical Instruments

Feel the Difference of Precision Craftsmanship

Highest Quality Surgical Instruments
Since 1921

Dear Customer,

Since 1921, Scanlan International, Inc. has been designing and manufacturing the highest quality surgical instrumentation. Our Microsurgical line is a unique collection of instruments for procedures working within small to medium sized surgical fields. Each instrument is designed with the highest grade stainless steel or titanium alloys, and are handcrafted with meticulous precision... allowing excellent tactile response and control.

SCANLAN® Super-Micro Fine instrumentation is designed to meet the needs of all microsurgeons who work under a high power operating microscope or utilize surgical loupes to facilitate microvascular surgical technique by anastomosing small nerves and vessels.

Sincerely,

Timothy M. Scanlan
President and Chief Executive Officer

Super-Micro Fine Instrumentation

Highest Quality Materials and Manufacturing to Provide a Difference You Can Feel.

SCANLAN® *Super-Micro Fine* Needle Holders

- High Quality Titanium and Stainless Steel
- Titanium Needle Holders are **Non-magnetic** – eliminates needle jump
- Titanium Needle Holders are **Lightweight** – reduces the chance for wrist fatigue
- Low Profile Tapered Shanks for improved visibility under the microscope
- Designed For Use With 9-0 Suture (100 micron needles) or smaller
- 0.3 mm **Super-Micro Fine** tip
- **DIAMOND DUST™** jaws provides a secure grip while protecting the needle from burring
- Non-locking

SCANLAN® *Super-Micro Fine* Forceps

- High Quality Titanium and Stainless Steel
- Titanium Forceps are **Non-magnetic** – eliminates needle from clinging to instrument
- Titanium Forceps are **Lightweight** – reduces the chance for wrist fatigue
- Low Profile Tapered Shanks for improved visibility under the microscope
- Specifically designed for manipulation of small vessels
- 0.3 mm **Super-Micro Fine** Tip
- **DIAMOND DUST™** coating provides superior grasping of tissue

SCANLAN® *Super-Micro Fine* Scissors

- High Quality Hardened Stainless Steel for industry leading durability
- SCANLAN® *Premier™* scissors use proprietary technology that enhances the hardness and corrosion resistant properties of stainless steel
- **100% Cut Tested** to ensure a high level of quality
- **12-month Guarantee** on the sharpness of Scanlan® *Premier™* scissors

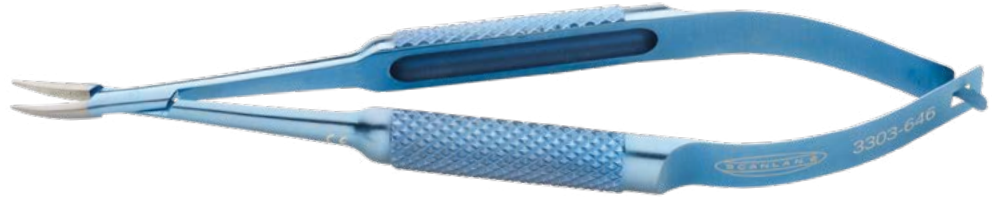

All Scanlan Instruments are backed by a 10-year Guarantee against manufacturing material defects

SCANLAN® MICROSURGICAL NEEDLE HOLDERS

SCANLAN®
Super-Micro Fine Needle Holders
for 9-0 Suture

3303-646

3303-622

Cat. No.	Description	Handle	Recommended Suture Size	Total Length
