

Extracranial-Intracranial (EC/IC) Bypass Instrumentation

INTERNATIONAL

Surgical products designed and manufactured by the Scanlan family since 1921

SCANLAN®

EC / IC Bypass Instrumentation Set

Three lengths of instruments have been developed to accommodate the requirements for the varying depths of cranial bypass.

Additional features of this offering include:

- A precise 0.3 mm tip
- Scanlan’s exclusive Diamond Dust™ technology to control needle rotation and enable atraumatic handling of needles, suture and tissue
- Streamlined tips on all forceps and needle holders provide enhanced visibility of micro needle and sutures
- Titanium forceps eliminate needle magnetism
- Metal instrument trays prevent damage to instruments during transport, cleaning and sterilization

SCANLAN®

EC / IC Bypass Instrument Set. 9999-166

Total set includes three subsets
9999-162 (Short). pages 4 - 5
9999-163 (Medium). pages 6 - 7
9999-164 (Long) pages 8 - 9

EC / IC Bypass Instrument Set may be purchased as a set or as individual components.
