SCANLAN® INTERNATIONAL

Surgical products designed and manufactured by the Scanlan family since 1921

A/V Access Instruments

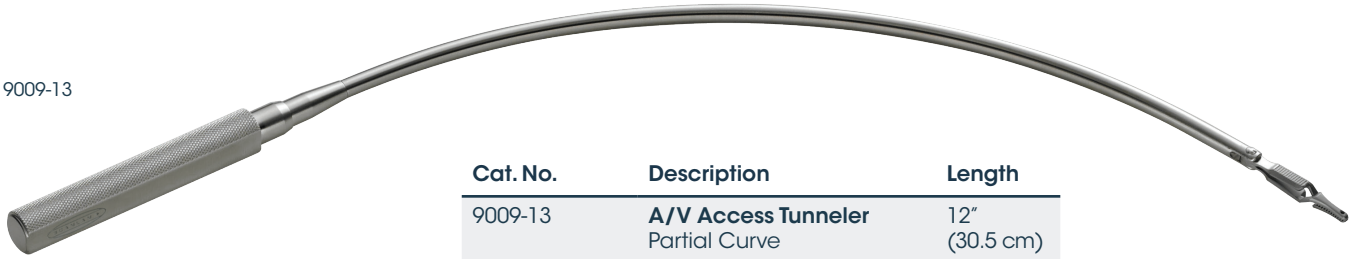
Since 1921, Scanlan International, Inc. has been designing and manufacturing the highest quality surgical instrumentation. Our A/V Access instruments are a unique collection of instruments for procedures working within small to medium sized surgical fields. Each instrument is designed with the highest grade stainless steel or titanium alloys, and are handcrafted with meticulous precision... allowing excellent tactile response and control.

This collection has been selected from our full line of high quality surgical instrumentation (consisting of over 3000 designs). Please visit us at www.scanlaninternational.com to review additional selections and options.

TUNNELING SYSTEM

9009-14

9009-13



Cat. No.	Description	Length
9009-13	**A/V Access Tunneler** Partial Curve	12″ (30.5 cm)
9009-14	**A/V Access Tunneler**	12″ (30.5 cm)

9009-20

Interior Diameter

9 mm

For grafts up to 8 mm

9009-22

Interior Diameter

7 mm

For grafts up to 6 mm

Cat. No.	Description	Length
9009-20	**A/V Access Tunneler Sheath and Bullet Tip** Large (Orange) for Grafts Up To 8 mm	12″ (30.5 cm)
9009-22	**A/V Access Tunneler Sheath and Bullet Tip** Small (Yellow) for Grafts Up To 6 mm	12″ (30.5 cm)
